EDUCATION

M.S., Computer Science | Northeastern University

SEPT 2018 – DEC 2020

- GPA: 3.94
- Relevant coursework: Human-Computer Interaction, Web Development, Mobile Application Development, Database Management Systems, Computer Systems, Object-Oriented Design, Foundations of Software Engineering, Computer Graphics, Algorithms

B.S., Japanese and Psychology | Colgate University

SEPT 2011 – MAY 2015

SKILLS

- Proficient: Java, C/C++, Python, HTML/CSS/JavaScript, SQL, Android Studio, Git/GitHub
- Familiar: React, R, R Notebook, MongoDB, REST, NativeScript

EXPERIENCE

Media Production Assistant | Boston College (Center for Digital Innovation in Learning)

OCT 2018 – DEC 2020

- Analyzed, edited, and created graphics for filmed graduate and undergraduate online course content using the Adobe Creative Suite
- Supported the Media Team on set to film lectures and interviews

Network Analyst (NOC) | KDDI Global

JULY 2015 – AUG 2018

- Monitored and managed the company's global VoIP network performance by identifying, analyzing, and resolving network problems
- Interfaced with external clients and internal commercial, routing, and engineering teams to articulate issues and solutions
- Promoted expeditious team workflow by researching, organizing, and writing procedures and training documents for the internal NOC website

PROJECTS

StashBusters | Android Application

- Developed a social app where users share photos of their craft supply stashes and swap supplies and ideas for using them, which boosts creativity and keeps craft materials out of landfills

Word Nerds | Web Application

- Built the front end of an interactive dictionary for word lovers to share meaningful human input, such as their favorite quotes, example sentences, comments, and personal definitions

Image Processor | Java Application

- Developed a Java application to generate, load, and manipulate images via effects such as filters and color transformations, utilizing object-oriented design principles and the MVC design pattern
